

Feedback

Ilya has completed all the stages of the summer internship brilliantly while also demonstrating outstanding teamwork skills in the process. Not only did Ilya complete his part of the project, he has also helped other students in their jobs. All the internship's milestones have been completed.

Recommendations

I can only advise Ilya to keep boosting his professional skills and maintain his current levels of performance and enthusiasm. If Ilya keeps working the way he was during the internship, there is a chance he can achieve outstanding results.
